

I would like for you to please consider making a donation to the Noblesville Swimming "Save Our Pool" Marathon on August 27, 2010. This marathon is being held in order to raise money to offset the operational costs related to keeping the NHS Freshman Campus Pool open for the coming year. I will be swimming for one hour straight along with more than 90 other participants over the course of a 24-hour period.

With the recent budgetary cuts for all schools in Indiana the Noblesville School Board has included the closure of the NHS Freshman Campus pool in their necessary budgetary cuts for the 2010-2011 school year. One of our swim parents made an outstanding presentation to the School Board on Tuesday, July 13<sup>th</sup> that resulted in the Board voting to create a committee to work with NOB on a resolution to this problem.

Closure of the NHS Freshman Campus pool would greatly affect all of the programs currently using both this facility and the NHS Main Campus pool as we would have to push 12 hours of programming into just 6 hours – an impossible feat. Those groups affected would be the NHS swim teams, the NMS swim teams, the NOB club team, our LTS program, the masters NASTI team, the Starz Diving team, the Indy Synchro Team and the Special Olympics swim team. We have all come together to help raise these funds to save our pool.

My goal is to raise at least \$100 for our pool but for every \$1 I raise over the \$100 we are going to give \$.20 to **Outreach**, an organization that helps homeless youth in Indianapolis with physical, spiritual and emotional needs. All donations are tax deductible. Thank you for your consideration of this cause and for helping insure that more than 400 participants in your community can remain involved in the Noblesville aquatic programs listed above.
